

What does the service provide?

The service will be available to people living in Doncaster who have dementia, and your carers, family members and friends. The service will:

- Provide clinical and non-clinical advice
- Increase awareness of dementia
- Improve equal access to assessment
- Provide specialist support services and improved wellbeing

Each of the 5 locality hubs across Doncaster will have a dedicated Admiral Nurse and Dementia Advisor.

Admiral Nurses

Admiral Nurses are specialist dementia nurses who give much-needed practical and emotional support to family carers, as well as the person with dementia. Our Admiral Nurses can support you and your family throughout your experience of dementia, tailoring our support to your individual needs and challenges. We will give you the knowledge you need to understand the condition and its effects, the skills and tools to improve communication, and provide emotional and psychological support to help you carry on caring for your family member.

Dementia Advisors

Dementia Advisors provide non clinical advice, information and psychosocial support to people living with dementia, and their carers, family members and friends. Our Dementia Advisors can help you to access support groups in the community, meet other people with similar circumstances to your own, signpost other services that may be able to give you the support you need and much more.

How do I access the service?

You can self-refer to the service or you can be referred by your GP or other supporting agencies.

The Doncaster Admiral Service

Supporting people living with dementia
and their families to live well.

If you care for a person with dementia, or if you yourself have memory concerns or dementia, Doncaster's new Admiral Nurse and Dementia Advisor service can support you and your family or support network through your journey.

The Doncaster Admiral Service is a new pilot service that has been developed in partnership with Doncaster Dementia
