
Medical Examination

If something has happened within the last 7 days we will give you the option to have an examination, which can help to preserve any evidence. We can offer this even if you don't want to involve the police at the moment but feel that you might want to in the future.

The examination will be carried out by specially trained female medical examiners and you will be supported by one of our crisis workers throughout. Each stage will be explained to you beforehand so you are clear what they are for and we will ensure that you agree to everything before it is carried out. You can stop or pause at any point.

Medical Care

We can discuss your emergency contraception needs. The sooner the emergency contraceptive pill is taken, the more successful it is, this is available to you if required.

Our team are also able to provide immediate sexual healthcare advice and can give you information about screening for sexually transmitted infections (STIs).
